

Jonathan Olds-Janka

5050 Hacienda Dr. Apt #638

Dublin, CA. 94568

To Whom It May Concern:

I am very interested in any motion graphics, editing, assistant editing, color correction, photography or media production, or marketing positions within your company. Such positions would meet all my current expectations for continued professional growth working in such fields. I feel such positions would be great for me to professionally grow. I am a driven professional, computer savvy, and multifaceted individual. I have excellent digital media skills and media production knowledge. I have great interpersonal skills, having worked on teams, and with diversified groups throughout my life.

I am willing to go above and beyond expectations. Upon completion of my BA degree from CSUMB I was immediately recruited to intern with BOR-Beyond Our Reality Productions based in New York. There I gained an incredible amount of experience in production and camera operations. Currently, I am doing data entry for Apple via apex contractors. However my career passion is in digital media, editing, visual aesthetics, visual effects, video production, and the process that goes into multimedia creation. My digital media expertise includes working with programs such as; Avid, Final Cut Pro, DaVinci, and After Effects. I also am confident working with most of the adobe creative suite, Photoshop, Illustrator, premier, Indesign, and Microsoft office; for logistics and clerical needs. In multimedia production, I am a "jack of all trades" and I possess a strong sense of professionalism. My highest professional goal to achieve is to own my own company in post-production film editing. It would be an honor to work for a company that would offer me a position related to achieving this goal and gaining valuable professional growth.

My personal characteristics, my BA degree in Cinematic Arts and Technology and my professional experience make me an ideal candidate for any of the previously stated positions. It would be my sincere pleasure to work in such a field. Thank you for this potential opportunity and I look forward to discussing my qualifications further which will be a benefit to you and provide me further professional growth. I know my experience is limited to school, and some PA work, but I am capable of everything needed in digital media. I just need the right opportunity.

Sincerely,

Jonathan Olds-Janka
